

BAY AREA VOTING ANALYSIS

PROPOSITION 21

2010 General Election

Created by
Alexandra Barnish
GreenInfo Network

May 9, 2011

INTRODUCTION

GreenInfo Network was asked by California State Coastal Conservancy and San Francisco Restoration Authority to analyze voting patterns of Proposition 21 in the Bay Area. California Proposition 21, a Vehicle License fee for Parks Act, was on the November 2, 2010 ballot and was defeated. Prop 21 would have increased vehicle license fees in California by \$18 a year in order to raise about \$500 million a year in a dedicated fund for state parks.

To do so GreenInfo acquired 2010 General Election data by voting precincts and aggregated the results to city and county levels. Presented are the analysis methods, the basic findings of the voting patterns (in maps and charts), and some initial data observations that could be further explored in the next phase.

PROJECT PHASES

- Phase I: collect data
- Phase II: data analysis, initial findings/summaries
- Phase III: analyze voting patterns in assemblages of cities or precincts

METHODS

California voting results for the 2010 General Election (Prop 21) and voting precinct boundaries were acquired from the UC Berkeley Statewide Database (<http://swdb.berkeley.edu/geography.html>). Bay Area counties (Alameda, Contra Costa, Marin, Napa, San Francisco, San Mateo, Santa Clara, Solano and Sonoma) and Prop 21 results were extracted from a California dataset for the project analysis. Precinct data calculations included voter turnout, number of votes for and against Prop 21, and votes in favor above 50%. Through spatial analysis, precincts were related to incorporated city boundaries and the project voting calculations were aggregated accordingly. Bay Area incorporated city boundaries were acquired from 2009 Census Tiger places (<http://www.census.gov/geo/www/tiger/tgrshp2009/tgrshp2009.html>), which defined a city's incorporated/unincorporated status. After combining the precinct data elements, voter turnout, number of votes for and against Prop 21, and votes in favor above 50% were calculated for each city. Parcel information for all nine Bay Area counties was available and aggregated to both the precinct and city boundaries. Parcel summations were calculated for precincts, cities, and counties. Where residential and commercial land use information was available (Marin, Napa, San Francisco, Santa Clara and Sonoma), parcel summations for these two land use groups were also calculated.

REPORTS BY PRECINCT

VOTER TURNOUT BY PRECINCT

This map shows voter turnout rate for the 2010 General Election by precinct. Voter turnout is calculated as the percentage of registered voters who actually cast a ballot on Election Day. Low turnout (<or= 25%) is highlighted in red; 1% of all precincts fell into this classification. High turnout (>or= 75%) is highlighted in dark purple; 23% of all precincts fell into this classification. North Bay counties (Marin, Sonoma, and Napa) had a high voter turnout. The average voter turnout for all precincts was 66% and the majority of precincts fell in this middle range.

PRECINCTS WITH VOTES IN FAVOR OF PROP 21

This map shows the percentage of votes per precinct in favor of Prop 21 (voted yes). Three classifications above and below a 50% threshold were defined, with extremes of 0% and 100% in favor highlighted. Measures of zero percent on Prop 21 do not necessarily indicate voters were opposed. Not all voters actually vote for each proposition on the ballot, 0% can represent both the opposition to and absence of votes for Prop 21. The average votes in favor for all precincts were 256, and overall 56% supported the proposition with a majority vote (more than 50% votes yes).

PRECINCTS WITH MAJORITY VOTE IN FAVOR OF PROP 21

This map shows precincts with greater than 50% votes in favor of Prop 21. The majority of voters in a given precinct support Prop 21 if more than 1/2 of the total votes cast were in favor. Over half (56%) of all precincts in the Bay Area voted majority in favor of Prop 21; with considerable support coming from the North Bay (Marin and Sonoma Counties) and the Peninsula (San Mateo and Santa Clara Counties). Those precincts with > 2/3 majority in favor are highlighted in dark blue and represent 14% of all Bay Area voting precincts.

PRECINCTS WITH UNANIMOUS VOTES FOR OR AGAINST PROP 21

This map shows precincts that unanimously supported or opposed Prop 21. Forty Bay Area precincts unanimously supported the proposition (100% votes yes) and forty-six precincts unanimously opposed (100% votes no). Three of nine counties (Marin, Napa and San Francisco) did not have any precincts with undivided support for or against the proposition and precinct totals unanimously for and against are provided for each county.

REPORTS BY CITY

VOTER TURNOUT BY CITY

This map shows voter turnout rate for the 2010 General Election by city. Voter turnout is calculated as the percentage of registered voters who actually cast a ballot on Election Day. Low turnout ($\leq 50\%$) is highlighted in red (East Palo Alto and San Pablo); 2% of all incorporated cities. High turnout ($\geq 75\%$) is highlighted in dark purple; 26% of all incorporated cities. The average voter turnout for all cities was 68% and overall the Bay Area had high voter turnout; with 65% of all registered voters casting a vote on Election Day (2,322,555 total votes).

CITIES WITH VOTES IN FAVOR OF PROP 21

This map shows the percentage of votes cast per city in favor of Prop 21 (votes yes). Every Bay Area incorporated city had at least 100 votes for and 100 votes against the proposition, so extremes of 0% and 100% votes in favor are not found at the city level. The average votes in favor for all cities was 10,500, and 57% of Bay Area supported the proposition with a majority vote (more than 50% votes yes).

CITIES WITH MAJORITY VOTES IN FAVOR OF PROP 21

This map shows cities with greater than 50% votes in favor of Prop 21. The majority of voters in a given city support Prop 21 if more than 1/2 of the total votes cast were in favor. Over half (57%) of all cities in the Bay Area voted majority in favor of Prop 21; with considerable support spread throughout all nine counties. Seven percent of supported the proposition with > 2/3 majority and include Albany, Berkeley, Emeryville, Fairfax, Mill Valley, San Anselmo, and Sebastopol.

CITIES WITH THE HIGHEST PERCENTAGE OF VOTES FOR OR AGAINST PROP 21

This map shows the top Bay Area cities in support of or opposed to Prop 21. Not one Bay Area city had a unanimous approval for or against the proposition. Berkeley had the strongest support, with almost 80% of votes cast in favor (votes yes). Oakley had the strongest opposition to the proposition, with 65% of votes cast against (votes no). Cities in Solano and Contra Costa counties were strongly opposed; 10 of the 11 top cities voting against were in these two counties. Alameda and Marin counties had most of the cities (7 of 11) that strongly supported, and concentrated support appears spread throughout pockets in the Bay Area, contrary to the centralized opposition areas.

CITIES WITH THE HIGHEST PERCENTAGE OF VOTES FOR OR AGAINST PROP 21

DATA OBSERVATIONS AND SUGGESTED FUTURE RESEARCH

CITIES

- At first glance, votes for Prop 21 appear to be related to income and ethnicity
- Phase III could look at the median household income and/or ethnic breakouts of these cities and see if a correlation does exist
- White affluent cities (as a collective vs. individual voters) appear to be most in support
- Counties with a large number of protected lands appear to vote in favor (Example: Marin County)

STATE PARKS

- Does the proximity of a State Park affect voting results?
- 78% of cities within ½ mile of a state park voted 50% or more in favor of Prop 21
- 63% of precincts within 1/10th mile of a state park voted 50% or more in favor of Prop 21
- Phase III could look to expand distance thresholds and see if park correlation does exist
