

Date: January 12, 2011
To: ABAG Executive Board
From: Ezra Rapport, Executive Director
Subject: 2014-2022 Regional Housing Need Allocation's
SCS Housing Methodology Committee

At its November meeting, the Board authorized ABAG Staff to form a Sustainable Communities Strategy (SCS) Housing Methodology Committee (HMC). Since that time, we have received numerous nominations. The committee was described as being made up of local elected officials, jurisdiction staff members, and various interest groups. This committee will advise ABAG Staff about the appropriate methods for allocating the region's housing need to individual jurisdictions and potentially the appropriate relationship of the Regional Housing Need Allocation to the SCS. In addition to the representatives described to the Board in November, we have added several additional staff and elected officials to provide input from the larger jurisdictions.

The housing allocation process will start in January 2011. ABAG is scheduled to release draft methodologies in July 2011 and a preferred methodology in September 2011. Public participation is encouraged throughout, especially at public meetings and during official public comment periods following the release of discussion documents and Board decisions.

ABAG Staff would like to recommend the appointment of the following to the HMC:

ALAMEDA COUNTY

Alex Amoroso, Principal Planner, City of Berkeley
Scott Haggerty, Supervisor, County of Alameda
