Agenda Item # 6

Risk Management

Committee Reports

Association of Bay Area Governments

PLAN CORPORATION

Pooled Liability Assurance Network

Association of Bay Area Governments

Risk Management Committee
Regular Meeting
AGENDA
April 10, 2013
10:30am–1:00pm

101 Eighth Street
Oakland, CA 94607
Conference Room B

Teleconference Locations:

Participant	Member City	State	Street Address
Leslie Jensen	Morgan Hill	CA	17575 Peak Avenue
LeeAnn McPhillips	Gilroy	CA	7351 Rosanna Street

1. Call to Order

2. Public Comments

3. Approval of Minutes – October 17, 2012 - **(Action)**

4. Plan Program Performance Highlights – **(Information)**
   a. PLAN Staff will provide an update on PLAN loss trends and major loss causes.

5. Risk Management Program Update – **(Information)**
   a. Bickmore staff will provide an overview on the Risk Management Best Practices Risk Assessment Project; Phase 1)
   b. PLAN Staff will review/discuss project outcomes and outstanding issues. Staff will also discuss the initiation of Phase 2 - Operational Best Practices and review Phase 2 focal areas.

6. Risk Management Grant Program Funding – **(Information/Action)**
   a. PLAN Staff will provide an update on program funding levels for FY12/13 Risk Management Grant Program, analyze member grant fund utilization and seek approval for FY13/14 member grant allocations.

7. Risk Management Training Program – **(Information)**
   a. Staff will provide update on Risk Management Training program.

8. Insurance Program – Property Appraisals/PML Study **(Information)**

a. PLAN Staff will provide an update on Property Appraisals, Member Statement of Values and PML Study.

9. Other Business – Committee Member Nominations **(Action)**

a. PLAN Staff will present Member Participation report and seek nominations for new committee members for the 2013/14 term.

10. Adjourn

Association of Bay Area Governments

ABAG PLAN CORPORATION

Risk Management Committee
Regular Meeting Minutes
October 17, 2012

101 Eighth Street
Oakland, CA
Conference Room B

Presiding:
Michael Taylor — Saratoga

Risk Management Committee Members Present:
LaRae Brown — Millbrae
Brian Dossey — Colma

Participant
Leslie Jensen

Teleconference Location
Morgan Hill
17575 Peak Avenue
Morgan Hill, CA 95037

Staff Present
Jim Hill, PLAN Risk Management Officer
Gertruda Luermann, PLAN Risk Analyst
Carol Johnson, PLAN Administrative Assistant

1. **Meeting Called to Order:**
   Meeting was called to order by Michael Taylor at 1:15 p.m. A quorum was not present.

2. **Public Comments:**
   None

Note: Approval of minutes was postponed for quorum. Leslie Jensen joined the meeting at 1:34 p.m. A quorum was announced.

3. **Approval of Minutes, April 11 2012:**
   Minutes of April 11, 2012 were approved as presented.
   /M/Dossey/S/Brown/C/unanimously approved

4. **PLAN Program Performance Highlights (Information):**
   Jim Hill provided an update on PLAN's expected loss trends. He reported the following:

   PLAN liability programs expected liability for outstanding claims as of June 30, 2012 as being $23,498,200, representing an increase of $571,000 from the original estimate provided by the actuaries at the June Board Meeting.

   He reported the actual incurred loss development as being significantly more than anticipated. The Actual incurred losses had increased by 4.4million or $2.34 million more than anticipated.

   He stated that the paid loss development was also more than expected. Paid losses increased by 4.5 million or $1.57 more than estimated in the prior report.

   In summary he said that the Risk Management Committee will continue to monitor loss development as it impacts surplus to ensure that corresponding annual grant funding allocations recognize and reflect the increasing trend associated with PLAN program loss development.

   There was no action required on item #4.

5. **Risk Management Program Update:**
   Gertruda Luermann reported on the Risk Management Program Update and Best Practices Reassessment.

   She stated that the purpose of the reassessment is to provide a way to review the cities/towns policies and procedures with the ultimate goal of assisting each member with implementing an effective Risk Management Program. Reassessments will be conducted between October 2012 and February 2013.

   She reported that the reassessment will be part of the annual Risk Management Goals and in order to have consistent assessments among all members, a list of validation criteria was developed for staff/consultants to utilize during the review.

   Committee discussed member funding implications if the reassessment is not completed satisfactorily. Staff (Jim Hill) indicated that grant funding for that specific member could be withheld until the assessment goal is completed satisfactorily. Staff (Gertruda L.) stated that she currently reviews all grant fund requests to ensure that they are aligned with established member strategic goals and monitors member activity to ensure that goals are being met.

   Brian Dossey sought clarification as to whether completion of the actual strategic goals, completion of the activity associated with the development of the goals or completion of the Best Practices assessment checklist constituted fulfillment of the objective allowing for grant funds to be released. Staff (Jim Hill) commented that the original premise of the program was for members to have completed the Best Practices Framework to become eligible for grant funding. Funding will be contingent upon completion of the Risk Management Assessment.

Brian Dossey inquired as to the impact to specific projects (training grants) that he has applied for and is waiting funding. Staff (Jim H) clarified that the funding restrictions only apply to the Risk Management grant and that other earmarked grants (Police, Training) are unaffected by the restriction.

Gertruda Luermann stated the above rule is currently in place. The group has allowed for some level of flexibility in the past. Staff also clarified that future grant funding for activities outside of the three designated strategic priority areas will be on a matching basis. It was noted that objectives may be changed/modified due to extraordinary circumstances (claim frequency) that may require immediate attention in terms of strategic planning.

Discussion ensued. Leslie Jensen inquired as to funding for the development of a Sewer Ordinance. This activity is eligible for grant funding and staff clarified what expenses are covered (external consulting expenses vs. internal salaries/overhead).

Mike Taylor advised the group that there was no action required on item #5, however, it is understood by the Committee that members need to complete/update the Risk Management Assessment to get grant funding.

6. **Risk Management Program Funding:**
James Hill presented graphs for explanation and discussion. The materials reviewed were Grant Program Utilization Reports and Graphs.

He reported that the ABAG PLAN grant program continues to be beneficial to members and is effectively utilized. Members continue to work closely with Loss Control Consultants in identifying key strategic areas of focus with respect to loss reduction and hazard mitigation. Risk Management will continue to work with each member during the Best Practices reassessment project further exploring ways to reduce loss frequency through strategic implementation of grant funded loss control/loss reduction activities.

Discussion ensued. There was no action required on item 6

7. **Insurance Program:**
James Hill provided an update on ABAG EQ Resiliency program and discussed plans to conduct an ABAG PLAN property PML analysis to assess and determine PLAN member exposure to catastrophic loss. He stated that the study will provide information on PLAN member's individual catastrophic exposure and will provide solutions with respect to EQ exposure.

EQ PML was handed out to members. He state that the goal of the study will be to determine the average annual loss exposure for the property portfolio to assess what forms of risk transfer options would be available to PLAN.

He recommended that the Risk Management Committee approve and authorize the Risk Manager to initiate a formal PLAN Earthquake PML study at a cost not to exceed $7,500.
/M/Dossey/S/Brown/C/unanimously approved

8. Appraisal Project – Status Update:

James Hill reported the PLAN Property Program appraisal project is underway. A memo outlining the program and its requirements has been sent to all members from the PLAN Risk Management Officer. Alliant has contacted all PLAN members requesting further assistance in scheduling the appraisals and in identifying key contact personnel.

He stated that fourteen members has compiled with the appraisal requirement. Four members are still pending appraisals and Alliant has received no response to voice mails or emails.

A discussion ensued in reference to methods to ensure that all PLAN members meet the current appraisal requirement which is mandated by the PEPIP program.

9. Other Business:

None

10. Meeting was adjourned:

Meeting adjourned at 2:50 p.m.

Respectfully Submitted,
James Hill, Risk Management Officer
PLAN Secretary

Oakland, CA 94607- 4707

MEMO

Date: May 17, 2013

To: ABAG PLAN Executive Committee

From: Mike Taylor, Chair - Risk Management Committee

Subject: Risk Management Grant Program Funding

Recommendation: The Risk Management Committee is requesting approval for FY2013/14 member grant funding allocations based on the revised Actuary report. The ABAG PLAN grant program has proven to be beneficial to PLAN members and is being effectively utilized. PLAN members continue to work closely with our Loss Control consultants developing key strategic priorities to reduce loss frequency and to mitigate claims through Safety and Loss Prevention techniques.

PLAN Risk Management staff will work with each member during the Best Practices "Re-Assessment" project further exploring ways to reduce loss frequency through strategic implementation of grant funded loss control/loss reduction activities.

MEMO

Date: April 10, 2013

To: Risk Management Committee

From: James Hill – PLAN Risk Management Officer

Subject: Staff Report - PLAN Program Performance Highlights

Recommendation: None. This report is for informational purposes.

Overview:

Staff will provide an update on General Liability performance (General Liability Claims) for the past fiscal year. Staff will also review General Liability claim trends by Department and by cause of loss for the past five years.

Analysis:

ABAG PLAN Management Data Report (MDR) for all members, valued as of 12/31/2012, was utilized as the source report for this analysis.

Claims Count – General Liability claims frequency (number of claims) continues to decline on a year to year basis over the past five year period. The number of claims incurred declined 24% from FY2010 to FY2011 (627 GL claims vs. 474 GL claims). Claim count declined further by 9% from FY2011 to FY2012 (432 GL claims). Overall, PLAN General Liability claim frequency has been declining. The total open claim inventory (GL) at year end was 463. Total open claims inventory, including Property claims at year end was 570.

Claims by Department – Public Works department accounted for 62% of all GL claims over the past five years. Public Safety (Police/Fire) accounted for 20% of all GL claims over the same period with Parks & Recreation accounting for 14% of the total GL claims.

For the past full fiscal year (2011/12), Public Works contributed to 46% of the claim volume. Parks & Recreation contributed to 22% of the claim volume with Public Safety accounting for 20% of the annual claims volume.

Claim Values – Incurred claims by dollar have been trending downward over the past five years, however, we experienced a "blip" in 2010-11 with incurred losses of $16,225,000. We have isolated three significant bicyclist/pedestrian claims which are adversely impacting this FY. Two of the noted claims are carrying a reserved at $5 million. One of the claims is reserved at approximately $2 million ($1.8mm).

For the past full fiscal year (2011/12), Public Works contributed $5,775,262 (59%) of the total GL incurred value. Public Safety contributed $2,883,636 (30%) of the total incurred with Parks & Rec contributing 9% of the total loss.

Staff Report – PLAN Performance Highlights (con't)

Summary:

Public Works, Public Safety and Parks & Recs continue to be the primary contributors to PLAN claim frequency and PLAN incurred loss values. Within Public Works; Street (48%), Sewer (19%) and Sidewalk (18%) claims are leading contributors. The percentage of total Public Works claims over the five year period is noted in parenthesis.

Within Public Safety; Police claims constitute 93% of claims. The majority of the complaints allege improper use of force, false arrest and violation of constitutional rights which add complexity to the timing and settlement these claims.

Our analysis of losses occurring within Parks and Recreation Departments reveals that 56% of all claims are related to "trees". This is notable due to the fact that in many jurisdictions the responsibility for tree maintenance falls within Public Works. We will continue to evaluate this coding nuance to determine if a change in our coding structure is warranted.

Despite the noted downward trend in claim frequency, the average cost per claim has risen significantly. Over the past five years, the average per claim cost for General Liability claims has risen from $15,413 to $22,491. This reflects an increase of 46% over the past five years.

We will continue to closely monitor loss activity and loss drivers in these three areas. PLAN Consultants will assist each member in the development of strategies to manage loss frequency within jurisdictions where similar loss indicators exist.

MEMO

Date: April 10, 2013

To: Risk Management Committee

From: James Hill -- PLAN Risk Management Officer

Subject: Risk Management Program Update

Recommendation: None. This report is for informational purposes.

Summary:

Staff will provide an update on PLAN Risk Management Activity for the current fiscal year. Bickmore Risk Services (Jeff Johnston) will provide the group with an overview of Phase I of the Risk Assessment project.

Discussion to include:

Bickmore Risk Services – Phase I; Consultant Feedback and Insight
Risk Management Master Scorecard (Updated) -- Overview/Discussion
Member Assessments; RM Goals FY 2012-13 – Overview/Discussion

Staff will report on the establishment of FY2012/13 Risk Management goals/objectives for each member and provide detailed information on the Risk Management program and re-assessment project. Staff will answer committee questions related to project activity, major accomplishments to date, PLAN member revised scorecards and PLAN member Risk Management Goals for 2012-13.

Bickmore

March 7, 2013

Mr. James Hill, Risk Management Officer
ABAG PLAN Corporation
P.O. Box 2050
Oakland, CA 94604-2050

Dear Jim:

It's been good working with you over the last couple of years to refine the risk control service approach for ABAG PLAN. Our collaborative efforts have resulted in positive changes that benefit the membership and the pool. Some of the recent successes include:

- **Revised management data reports (MDRs)** – After several meetings and numerous draft documents, new MDRs were created. Information on the MDRs now provides a more succinct summary that can be better utilized to target loss trends. Going into the second year with the revised format, feedback from members has been positive. In addition, the time spent generating the MDRs has been cut substantially, and they can now be provided in a timelier manner.
- **Re-alignment of risk control staff** -- Staff changes were made to ensure optimal customer service is provided to ABAG PLAN members.
- **New focused assessment** – After several collaborative meetings, a new focused assessment was developed. This assessment has been well received since the on-site meeting can now be conducted in a relatively short time period and a more in-depth analysis is included (i.e. meetings with operations people in addition to risk managers). Members appreciate focusing on a few areas at a time, and it also makes the recommendations manageable.
- **Targeted, active risk management goals** – The focused assessment has made it easier to create realistic, obtainable goals within a short time period. We have also taken a more active role in helping members complete their recommendations. There are no longer carry-over risk management goals from year to year.

At this point, we have created a great foundation to build upon, and we are looking forward to taking risk control to the next level for ABAG PLAN. The following outlines some of the areas of opportunity where we feel we can assist.

Refine the Framework

After conducting the focused assessment of sections 1-4 and auditing to the current framework, we learned there are opportunities to "right size" the ABAG PLAN risk management/safety program requirements. The idea would be to review each section and set up performance standards that allow members to meet the intent or spirit of the requirement in ways that make sense for the organization. For example, the requirement for a risk management committee may not be practical for a member with eight employees, but there should still be documented meetings where discussions about risk management take place. These types of documented meetings would satisfy the spirit of the requirement, but there is no flexibility to give credit with the current framework. Refining the framework to allow for varying sizes, structures, and resources would be better received by members and would allow us to be viewed as more of a resource through ABAG PLAN.

Revise the ABAG Risk Management Manual

Once the framework is addressed, the risk management manual would need to be revised to reflect the current framework.

Attend Risk Management Committee Meetings

Allowing us to present to the committee would allow us to get feedback firsthand, to make adjustments to our approach, and to provide a third-party perspective from a Certified Industrial Hygienist and a Certified Safety Professional.

Streamline Reporting Processes

We would like to review internal and external reports and resources to focus on building efficiencies. Some items overlap, and there are opportunities to make them more simple and straightforward.

It would be great to talk to you more about these ideas and create a plan moving forward to build on the success we have had over the last few years. I look forward to talking to you soon.

Sincerely,

Jeff Johnston

Jeff Johnston, CSP, ARM, ALCM
Director, Risk Control Services

March 26, 2013 ABAG PLAN Strategic Planning Meeting Summary

What went well with Focused Assessments?

- Easy to get people to participate
- Members were well-prepared and knew what to expect
- Members understood why we were asking for more information
- Helped to make members realize they are not really green in all areas -- reality check
- Not viewed as an exercise in futility
- Helped us to address the issue "Documentation could hurt us" from a member perspective
- Helped us to explain loss trends – not really green lights in these areas and still have work to do

What Could Have Gone Better with Focused Assessments?

- Documentation was not there, but some things are not feasible to track (i.e. executive team meetings)
- Criteria needs to define what we must see documented versus what we can just take their word

Lessons Learned Moving Forward

- Look at the Risk Management Manual since this is where a lot of criteria for the focused assessment originated – criteria needs to be more flexible for the sections that will be addressed during phase 2
- Develop global tools that can be customized before going out to do phase 2 assessments and have the resources ready to review with members
- Identify the areas where we need to see documentation vs. taking members' word for phase 2 criteria
- Provide 100% grant reimbursement only for those areas addressed by the focused assessment
- Use management data reports (MDRs) to identify areas to focus for phase 2 to ensure services and grant money are focused on loss drivers first and foremost
- It is OK to share focused assessment criteria on the checklist with the member, and the ideal is to define what it takes to be successful in each area and paste it into the Safety Logic Report when communicating in writing back to members – this should be the same for all consultants, making it more efficient and straightforward for the members

Phase 2 Focused Assessment Areas Based on MDRs

1. Sidewalk Inspection and Maintenance – Possible ideas for goals include:
    - Provide loss analysis focusing on geographical areas (this was done for Los Gatos)
    - Use interns to inventory
    - Inventory sidewalks, trees, and sewers at the same time
    - Engage other departments such as police, public works, etc. to assist with inventorying
    - Invest in GPS systems – great use of grant money
    - Organize volunteer groups to help with inventorying
2. Road Maintenance - Possible ideas for goals include:
    - Document protocol for design (i.e. bike lanes, encroachment areas, Cal Trans specs)
    - Post warning signs (i.e. "Beware of parked cars opening doors" in bike lanes) – great use of grant money
    - Replace manhole covers with lighter materials, so when they come off they don't damage cars – great use of grant money
3. Urban Forest Management (Trees and Vegetation)
    - Survey to know who owns trees and make sure it is defined in ordinance
    - GPS of inventory, identifying baseline health, type of tree, and location, vendors will do this service for around $2 per tree
    - Evaluate to determine if it would be good to encourage members to be Tree City, USA, which includes the requirement to have urban forest management plans (may create some liability challenges, so this needs to be researched more)
4. Contractual Risk Transfer
    - Ensure scope of contract includes best practices when services such as the following are contracted:
        - Sidewalk maintenance
        - Trees
        - Pools
        - Playgrounds
    - Look at processes, not actual contracts (i.e. sample hold harmless/indemnification language, who has authority, is current Alliant manual used)
5. Aquatics Programs
    - 2010 ADA regulations followed?
    - Aquatics review done?
    - Jim Wheeler, Aquatics Expert, will assist with criteria

Process to Get Approval for Goals

1. Consultant develops scope with hours and gets buy-off from members
2. Scope goes to Gertruda with hours identified
3. Gertruda determines if funding is available
4. Gertruda and Jim get back to member and negotiate if there is not enough funding available
5. Gertruda gets back to consultant to relay approved scope and funding
6. In all cases, consultants will base the suggested goals on what they think is necessary to address loss trends and improve scorecards. In no case should the consultant try to develop a plan designed around the allotted hours.

Goal Development with Members

1. Goals should be developed within the first 90 days of the program year
2. Consultant project management of goals is acceptable where consultant is not involved with completing the goal (i.e. when relying on a vendor to provide subject matter expert training, consultant can manage the process and coordinate with vendor)
3. It is acceptable for goals to have 2-3 year plans as long as the goals are managed and updated
4. Milestones should be established for the goals

ABAG PLAN Risk Management Committee
Risk Management Program Update

Association of Bay Area Governments
ABAG PLAN CORPORATION

Oakland, CA 94607-4756

Staff Report

Date: April 10, 2013
To: Risk Management Committee
From: Gertruda Luermann
Re: Risk Management Program Update – Best Practices Reassessment

Attached you will find the following documents:

1. Framework Re-Assessment Status Summary (p.1)
2. Master Scorecard (p.2)
3. Risk Management Goals Summary (ps.3-5)

Supplemental Documentation:

4. Individual Scorecards of all cities/towns (ps.6-34)
5. Risk Management Goals Details for all cities/towns (ps.35-49)

As of to date, the re-assessment of the Framework Best Practices (FBPs) has been completed with the exception of Benicia, Foster City and Woodside. Woodside is scheduled in April. While it has been difficult for the consultants at times to get meetings scheduled, once the meetings did occur, participation and cooperation by members was positive.

As has been anticipated, we are seeing that the status of most FBPs for most cities is not "*in place/effective* " anymore. Some of the outstanding Risk Mgmt Policy and Organization issues might be due to loss of institutional knowledge because of new staff and/or staff reduction. A large part of non-compliance is in the area of the IIPP. While the IIPP has been incorporated in the Best Practices and supported by the service credits, it is not a true third party liability issue but uses up a large amount of the service credits which are funded by PLAN third party liability premiums. Staff recommends continuing to support IIPP needs resulting from this assessment in the 13-14 Program Year but to discontinue thereafter.

As an outcome of this year's Re-Assessment, we are seeing an increased need by members for assistance to work on their risk management strategic planning. Therefore, we will allocate the services credits for next year's Re -Assessment from the City Risk Management Program Grant instead of the Best Services Credits in order to avoid members not having credits available for other strategic goals.

ABAG PLAN Risk Management Committee
Risk Management Program Update

Outstanding non-compliant FBPs should be part of your next annual Risk Management Goals as well as the new Re-Assessment and potential loss drivers

Next year's Re-Assessment will cover the following five Operational Best Practices. These areas were selected based on ABAG PLAN's losses and observed needs by members:

1. Sidewalks
2. Streets/Road Maintenance
3. Urban Forest Management
4. Contractual Risk Transfer
5. Aquatics Programs

The Re-Assessments and strategic planning should be conducted within the first 90 days of the program year, so the consultants can develop a detailed scope of the annual risk management goals and submit to PLAN for approval.

Again, in order to facilitate the assessment exercise, we ask all members for their cooperation in providing the consultants with necessary documentation and access to staff as needed.

ABAG PLAN
Risk Management Goals Summary
2012-13

Member Cities	Risk Mgmt Goals	Complete Yes/No
American Canyon	1. Complete the ABAG Re-Assessment 2. Review the City's written Injury and Illness Prevention Program (IIPP) and revise if warranted. a) Review the IIPP and submit recommended revisions to Bronda Silva. b) Discuss recommended revisions, edit the written document and submit final draft IIPP. 3. To Be Determined at IPP February 12 Safety Committee Meeting	1. Yes
Atherton	1. Complete the ABAG Focused Assessment 2. Develop a Risk Management Policy per the ABAG Plan assessment criteria a) Draft the Town's Risk Management Policy b) Review, edit, and finalize the draft policy. Request the Town Council adopt a resolution supporting the policy. c) Once adopted, review the policy with employees. Document the review. 3. Develop a written IIPP in compliance with Cal/OSHA requirements a) Develop a draft IIPP and submit for Town review. b) Review, edit, and approve the draft IIPP. 4. IIPP Training a) Conduct manager/supervisor IIPP training focusing on specific responsibilities. b) Conduct employee IIPP training.	1. Yes
Benicia	1. Complete the ABAG Re-Assessment 2. Complete ADA Self eval update for parks	1. No
Burlingame	1. Complete the ABAG Re-Assessment	1. Yes
Campbell	1. Complete the ABAG Re-Assessment	1.
Colma	1. Complete the ABAG Re-Assessment 2. Urban Forest Management --tree ownership	1. Yes
Cupertino	1. Complete the ABAG Re-Assessment 2. Sidewalk Inspection Plan 3. Program support-attend 6 RMC mtgs	1. Yes
Dublin	1. Complete the ABAG Re-Assessment 2. Rec Contract Admin Process Review 3. Urban Forest Management Plan 4. Playground Safety Mgmt Plan and training (separate contract)	1. Yes
East Palo Alto	1. Complete the ABAG Re-Assessment	1. Yes
Foster City	1. Complete the ABAG Re-Assessment	1. No
Gilroy	1. Complete the ABAG Re-Assessment	1.
Half Moon Bay	1. Complete the ABAG Re-Assessment 2. Revise the written IIPP to ensure compliance with Cal/OSHA requirements. a) Revise the City's written IIPP and develop an Employee Safety Training Matrix and submit to Katie for review. b) Review, edit, and approve the revised IIPP and department training matrix. 3. Assist the city with developing sidewalk inspection procedures. a) Meet with the City to review current procedures including applicable ordinances and municipal codes. b) Develop the draft procedures and submit to the City for review. c) Review, edit, and adopt the procedures.	1. Yes
Hillsborough	1. Complete the ABAG Re-Assessment 2. ADA Budget Priority Determination 3. Urban Forest Ordinance and plan for Town trees 4. Maintain RM Program by participation in RMC meetings	1. Yes
Los Altos	1. Complete the ABAG Re-Assessment	1. Yes

ABAG PLAN
Risk Management Goals Summary
2012-13

Member Cities	Risk Mgmt Goals	Complete Yes/No
Hills	2. Develop a formal Risk Management Program and Policy. a) Draft a Risk Management Program and Policy including a method for the Town Manager to prioritize, monitor and track the risk management action plan. b) Communicate RM Program, goals and action plan to all Town employees c) Develop methods to implement the Risk Management Program (committee/staff meetings, system to monitor implementation) 3. Revise the written IIPP to ensure compliance with Cal/OSHA requirements. a) Revise the Town's written IIPP to update roles and responsibilities, develop an anonymous safety hazard reporting method, and to develop a hazard correction tracking system. Submit for review and approval. b) Review and revise PW safety training matrix. Provide to PW Director for review and approval. 4. Conduct a risk management assessment for the Town equestrian program. a) Identify an outside consultant to evaluate the Town equestrian program to ensure adequate risk management measures.	
Los Gatos	1. Complete the ABAG Re-Assessment 2. Roads and paths 3. Sidewalks 4. Urban forest 5. Maintain Safety and Risk Program	1. Yes
Millbrae	1. Complete the ABAG Re-Assessment 2. Infrastructure damage by OV analysis 3. Sidewalks 4. Sewer/Water	1. Yes
Milpitas	1. Complete the ABAG Re-Assessment 2. Vehicle/Driver Mgmt 3. Sewer RM-ordinance and prioritization 4. ABAG assistance with facilitation of RMC	1. Yes
Morgan Hill	1. Complete the ABAG Re-Assessment 2. Police 3. Sewer/Water 4. Vehicle use /Driver Selection Plan development	1. Yes
Newark	1. Complete the ABAG Re-Assessment. 2. Revise the written IIPP to ensure compliance with Cal/OSHA requirements. a) Revise the City's written IIPP and to describe the City hazard inspection and correction methods. Submit draft to RM Committee and IIPP Administrator (Sandy Abe, HR Manager) for review. b) Review and revise the Public Works Dept. safety training matrix. Provide draft to Bob Costa/Peggy Classen for review. 3. Ensure compliance with ADA requirements in the City Hall parking lot. a) Action plan under development. TBD	1. Yes
Pacifica	1. Complete the ABAG Re-Assessment	1. Yes
Portola Valley	1. Complete the ABAG Re-Assessment 2. Develop a formal Risk Management Program and Policy. a) Draft a Risk Management Program and Policy including a method for the Town Manager to prioritize, monitor and track the risk management action plan. b) Communicate RM Program, goals and action plan to all Town employees c) Develop methods to implement the Risk Management Program (committee/staff meetings, system to monitor implementation) 3. Revise the written Injury and Illness Prevention Program (IIPP) to ensure compliance with Cal/OSHA requirements. a) Revise the Town's written IIPP to update roles and responsibilities, develop an anonymous safety hazard reporting method, and to develop a hazard correction	1. Yes

MEMO

Date: April 10, 2013

To: Risk Management Committee

From: James Hill – PLAN Risk Management Officer

Subject: Risk Management Grant Program Funding

Recommendation: Staff is requesting approval for FY2013/14 member grant funding allocations.

Overview:

Staff will provide an update on program funding levels for FY2012/13 Risk Management Grant Program, analyze member grant fund utilization and seek approval for FY 2013/14 member grant allocations. Staff will review member grant utilization and compare funds allocated versus funds utilized. Staff will analyze grant utilization by category and provide information regarding the types of projects funded and project outcomes.

Reports to be reviewed are the Grant Payment Summary by Member (including charts/graphs) and the PLAN Grant Allocation Spreadsheet with preliminary grant allocations by member.

Analysis:

In FY 2012-13 PLAN allocated $1,829,472 in total funding for its Risk Management programs. This was an 18% reduction from the $2.2 million allocated in the prior fiscal year (FY2011-12). The grant funding allocation includes specific funds earmarked for Defensive Driving ($40,000) and Sewer Loss Prevention program ($60,000).

For the full FY 2011-12, PLAN members used $1,521,722 (68%) of available grant funds. The grant funds were used primarily for Risk Management Programs ($798,694), Police Grants ($379,114) and Best Practices Consulting ($220,207). During FY 2011-12, 16 members (55%) have utilized at least 80% of available grant funding for that year. This is a significant increase from prior year and the benefits of the grant program continue to be reaped.

For the current FY 2012-13, PLAN members have utilized $328,251 (18%) of available grant funds. The current year grant funds are being used primarily for Best Practices Consulting ($82,835), Police Risk Management ($89,540) and Risk Management Programs ($104,370). Grant requests for FY 2012-13 will continue to be processed projects through September 30, 2013 for projects earmarked and approved before the end of the fiscal year (June 30, 2013).

Risk Management Grant Program Funding – con't

Summary

The ABAG PLAN grant program continues to be beneficial to PLAN members and is being effectively utilized. PLAN members are working closely with our Loss Control consultants developing key strategic priorities to reduce loss frequency and to mitigate claims through Safety and Loss Prevention techniques. Risk Management staff will continue to work with each member during the Best Practices "re-assessment" project further exploring ways to reduce loss frequency through strategic implementation of grant funded loss control/loss reduction activities.

Staff Report

Date: April 10, 2013
To: Risk Management Committee
From: Gertruda Luermann
Re: Risk Management Program Update – Proposed 13-14 Grant Program Budget

Staff has prepared a budget for FY 13/14, with the current formulas remaining the same as in FY 12/13. Calculations are based on the 12/13 premiums plus 10% which is the expected rate of premium increase. A brief discussion of members' categories is provided below.

Risk Management Service Credits:
Staff recommends continued funding of 4% of each Member's total premium for FY 13/14. Focus will continue to be on assisting members with their risk management goals, assessing achievement of previous goals and the impact on losses.

Risk Management Program Grants:
The recommended funding is at 10% of each Member's premium and with an additional $15,000 for those members without police but capped at 20% of the premium. Staff recommends continuing the matching requirements unless the grant request relates to a stated risk management goal. Staff further recommends that the Re-Assessment consulting work should be taken out of this grant instead of the Service Credits to avoid members running out of credits for other strategic goals assistance. It was proposed that members achieve their goals for FY 13/14 first to qualify for the grants.

Risk Management Training Grant:
Staff recommends continuing this program at $5,000 per year for each member.

Police Risk Management Grant:
Staff recommends this grant to continue to be funded at $15,000 per member with police but capped at 20% of Member's premium and to reduce the $40,000 for police training for all members to $25,000.

Requested Action:
Staff requests the Committee review and approve recommendations to the Board for funding for risk management programs for FY 13/14.

Proposed 2013-14

ABAG PLAN CORPORATION
101 Eighth Street
Oakland, CA 94607- 4707

MEMO

Date: April 10, 2013

To: Risk Management Committee

From: James Hill – PLAN Risk Management Officer

Subject: Committee Participation Report and RMC Nominations

Recommendation: Staff will call for nominations to the Risk Management Committee for the upcoming fiscal year.

Summary:

Staff will provide a report on PLAN member committee participations and assess Risk Management Committee needs.

Discussion to include:

Review of ABAG PLAN Committee Participation Report
Nomination of PLAN member(s) for Risk Management Committee FY2013-14.

Staff will review and discuss member committee assignments for all PLAN committees and will seek nominations for new RMC members. Committee to discuss selection/nomination of RMC Committee Chair for the upcoming term.
