Show Me the Money!

How to Quickly Put ARRA Dollars and Other Energy Project Financing Resources to Work

Does your agency have ARRA funds, but lack time and resources to identify projects? Looking for innovative ways to finance energy efficiency projects in your facilities? Curious how efficiency and a Power Purchase Agreement (PPA) can make solar electricity a reality?

This workshop includes presentations on a range of energy efficiency and photovoltaic financing mechanisms for local governments. We will also cover the free services and incentives available from the Energy Technology Assistance Program (ETAP) and other programs aimed at helping local governments finance and implement energy projects. Guest speakers will present case studies on advanced, market-ready energy efficiency technologies that are widely applicable to local government facilities, including bi-level lighting for parking lots and garages; wireless lighting controls; wireless HVAC controls; and LED streetlighting.

Agenda Topics

Presenter

ETAP Services and Incentives	Forest Kaser, ETAP Program Manager
Case Study – Lighting	California Lighting Technology Center
Case Study – LED Streetlighting	TBD
Case Study – HVAC	TBD
ABAG Leasing Program	Clarke Howatt, ABAG
On-bill Financing	Brian DiGiorgio, PG&E
PG&E Local Government Program	PG&E
Power Purchase Agreements (PPAs)	Nate Glasgow, SunEdison

June 15, 2011
9:00 am – 1:00 pm
Lunch provided

Association of Bay Area Governments (ABAG)

Joseph P. Bort MetroCenter
Auditorium, Room 171

101 Eighth Street, Oakland
(across the street from
Lake Merritt BART station)
