In an effort to better serve our members in the area of energy management we are conducting a brief survey to assess members' desires with respect to services that ABAG or ABAG POWER could provide in the future.

We have identified several areas in which ABAG could potentially provide assistance to local governments by either working with internal ABAG staff, or by working with consultants with which ABAG has contracted. In the survey below we ask that you rate these various services based on your agency's expected needs.

1. Regardless of how the services are accomplished, which of the following services is your agency most likely to pursue during the next two years. (1) Very likely to pursue within the next two years; (2) likely to pursue; (3) possibility of pursuing; (4) unlikely to pursue; (5) definitely would not pursue within the next two years.

<u>Potential Services</u>	<u>Rating</u>				
a. Walk-through energy audits to identify energy conservation opportunities.	1	2	3	4	5
b. Detailed energy audit and engineering analysis, to include life-cycle and cost estimation of projects.	1	2	3	4	5
c. Feasibility study of self-generation and/or renewable generation projects.	1	2	3	4	5
d. Identification of potential funding sources for energy projects.	1	2	3	4	5
e. RFP Development.	1	2	3	4	5
f. Project Management/oversight.	1	2	3	4	5

- g. Development of a comprehensive energy policy document.¹ 1 2 3 4 5
- h. Comprehensive energy assessment of local government facilities.² 1 2 3 4 5
- i. Development of community-wide energy programs.³ 1 2 3 4 5
- j. Other: _____ 1 2 3 4 5

2. Assuming ABAG were to provide the services on a standard fee-for-service type of arrangement, please rate the services on the likelihood that your agency would pursue these services with ABAG in the next two years. (1) Very likely to pursue with ABAG in the next two years; (2) likely to pursue; (3) possibility of pursuing; (4) unlikely to pursue; (5) definitely would not pursue with ABAG in the next two years.

<u>Potential Services</u>	<u>Rating</u>
a. Walk-through energy audits to identify energy conservation opportunities.	1 2 3 4 5
b. Detailed energy audit and engineering analysis, to include life-cycle and cost estimation of projects.	1 2 3 4 5
c. Feasibility study of self-generation and/or renewable generation projects.	1 2 3 4 5
d. Identification of potential funding sources for energy projects.	1 2 3 4 5
e. RFP Development.	1 2 3 4 5
f. Project Management/oversight.	1 2 3 4 5
g. Development of a comprehensive energy policy document.	1 2 3 4 5
h. Comprehensive energy assessment of local government facilities.	1 2 3 4 5
i. Development of community-wide energy programs.	1 2 3 4 5
j. Other: _____	1 2 3 4 5

3. Assuming ABAG were to provide the services for free or at a substantial discount, please rate the services on the likelihood that your agency would

¹ For example, developing energy efficiency related policy language to be incorporated into the General Plan /Community Plan, or developing residential/nonresidential energy conservation ordinance language.

² This would include summarizing historic energy consumption data and providing energy cost benchmarking comparison analysis of all facilities in order to help prioritize future energy reduction activities.

³ I.e., programs that go beyond just city facilities, e.g.: community energy conservation awareness program or ordinance; commercial building design assistance, etc.

pursue these services with ABAG in the next two years. (1) Very likely to pursue with ABAG in the next two years; (2) likely to pursue; (3) possibility of pursuing; (4) unlikely to pursue; (5) definitely would not pursue with ABAG in the next two years.

<u>Potential Services</u>	<u>Rating</u>

j. Other: _____	1 2 3 4 5

3. Please list any other energy management services that you would like to see ABAG provide.

4. Would you be available to talk further about how to develop and promote these services? (Yes _____ / No _____). If yes, please provide a contact name and telephone number at the beginning of the survey.
